

List of rural roads in Tasman with 1000 or more vehicles per day

Low capacity roads are those with up to 1000 vehicles per day. These are not listed here.

Moderate capacity roads are those with 1000-5000 vehicles per day.

High capacity roads are those with over 5,000 vehicles per day.

These classifications relate to the NZTA stock under control guidelines (Schedule 1 of the draft Stock Control Bylaw).
