

This Funding Impact Statement should be read in conjunction with the Council's Revenue and Financing Policy.

Rates are set under the Local Government (Rating) Act 2002 ("the Act") as at 1 July each year.

The rates in this Funding Impact Statement are GST inclusive (unless otherwise stated.)

RATING AREA MAPS

The targeted rates which are set based on where the land is situated, as opposed to district-wide rates, have unique rating area maps which are included in this document. Rating units that fall fully or partially in the map area of a rate will be charged the applicable rate.

RATING UNIT: DEFINITION

The Rating Unit is determined by the Valuer General. It is generally a property which has one Record of Title but can include two or more Records of Titles or part Records of Title, for example, dependant on whether the land is owned by the same person or persons and are used jointly as a single unit and are adjacent.

RATING DIVISIONS

The Council will consider applications from ratepayers to apply rating divisions to a rating unit as per Section 27(5) of the Act, where there are different rating treatments for each part of a rating unit resulting from:

- The inclusion of different parts in different differential rating categories (see section 27(4)(b)(i) and (ii));
- The application of Part 1 or Part 2 of Schedule 1 to one or more parts of the rating unit;
- The application of a remission policy, a postponement policy, or a rates relief policy for Māori freehold land to one or more parts of the rating unit; and
- One or more separate rating areas being divided from a rating unit under section 98A.

RATING BASE INFORMATION

Clause 15A of Schedule 10 of the Local Government Act 2002 requires Council to disclose its projected number of rating units at the end of the preceding financial year. The projected capital value and land value are also disclosed below.

STATISTICS	PROJECTED FIGURES FIGURES AT 1 JULY 2025							
	RATEABLE	NON RATEABLE	TOTAL RATING UNITS					
Capital value (note last general revaluation was in late 2023)	\$28,485,051,850	\$1,377,167,790	29,862,219,640					
Land value (note last general revaluation was in late 2023)	\$15,577,221,400	\$942,585,640	16,519,807,040					
Rating units	26,487	1,398	27,885					

Funds raised by uniform charges, which include the UAGC and any targeted rate set as a uniform fixed amount per rating unit (excluding water and wastewater) cannot exceed 30% of the total rates revenue. The Council is projecting to set its uniform charges at 15% for the 2025/26 year, which is below the maximum allowed level.

GENERAL RATE						
The general rate funds activities that provide a general benefit across the entire District or which are not economic to fund separately. These activities include: environmental management, public health and safety, transportation, roads and footpaths, coastal structures, water supply, solid waste, flood protection and river control works, community development, governance, and council enterprises. The capital values are assessed by independent valuers. Their results are audited by the Office of the Valuer General. TARGETED RATES

Targeted rates are applied to specific groups of ratepayers who receive a specific service.

The Council will not accept lump sum contributions (as defined by Section 117A of the Act) in respect of any targeted rate.

Ratepayers in the Urban Drainage Rating Area receive greater benefit from stormwater infrastructure or cause the need for stormwater infrastructure. For this reason the Council has determined that a differential charge will be applied as follows:

2 WATER SUPPLY RATES						
2.1 WATER SUPPLY RATES – URBAN WATER SUPPLY METERED CONNECTIONS AND RURAL WATER EXTENSIONS TO URBAN WATER SCHEMES ("THE CLUB")						
Ratepayers on the Urban Water Supply with a metered connection pay both the volumetric charge and the service charge. The portion of revenue allocated to the service charge for rates is determined by taking 36% of the total revenue required for the urban water supply including the portion billed to other users as charges but excluding the rural water extensions to urban water scheme revenue, and then deducting the portion recovered through charges. The Club comprises those rating units with connections to the relevant urban water supply schemes.						
Ratepayers on the Urban Water Supply with a water restrictor pay the Rural Water Extensions to Urban Water Schemes rate.

2.2 WATER SUPPLY RATES - MOTUEKA WATER SUPPLY METERED CONNECTIONS						
Ratepayers on the Motueka Water Supply with a metered connection pay both a volumetric water supply charge and a service charge. The portion of revenue allocated to the service charge is determined by taking 36% of the total revenue required for the Motueka water supply and the Motueka firefighting water supply less the rates recovered by the Motueka firefighting water supply rate.						
The existing Motueka Water Supply account will continue to operate separately to the Urban Water Supply – Club account. This means that the water charges for the existing connected Motueka water users will have a different cost structure. As renewals and capital upgrades are required, these will be reflected in the water supply charges.

The Council has determined that a differential charge will be applied:						
*Dovedale Differential A – includes the supply of water for up to and including the first 2m³ per day. This rate is charged based on the extent of provision of service using the size of restrictor volume, with a base of 1m³ per day. A differential of 1 per 1m³ per day will apply. The Council utilises two targeted rates to fund the Council's rates contribution for environmental and community benefits associated with the Waimea Community Dam. The Districtwide rate is set to fund 70% of the environmental and community benefit cost to be funded through rates less the amount recovered through charges. In addition those rating units within the Zone of Benefit (ZOB) will fund the remaining 30% of the revenue less the amount recovered through charges because properties with a closer proximity to the water supplied by the dam will have a greater benefit than those farther away.

ASSESSMENT AND INVOICING

For rates other than volumetric metered water rates, rates are set as at 1 July each year and the Council invoices rates quarterly, with the instalment invoice dates being 25 July, 25 October, 25 January and 25 April. Each instalment is one quarter of the total annual rates payable for the year. Rates are due and payable to the Tasman District Council. The 2025/2026 rates instalments due dates for payment are:

INSTALMENT 1 DUE DATE	20 AUG 2025
INSTALMENT 2 DUE DATE	20 NOV 2025
INSTALMENT 3 DUE DATE	20 FEB 2026
INSTALMENT 4 DUE DATE	20 MAY 2026

Volumetric metered water rates are invoiced separately from other rates. Invoices for the majority of users are issued six monthly and invoices for larger industrial users are issued monthly. The 2025/26 due dates for payment are as follows:

FUNDING IMPACT STATEMENT

PENALTIES

For rates other than volumetric metered water rates, under Section 57 and 58 of the Local Government (Rating) Act 2002, the Council prescribes a penalty of ten percent (10%) of the amount of rate instalments remaining unpaid after the due date to be added on the following dates:

INSTALMENT 1 PENALTY DATE	21 AUG 2025
INSTALMENT 2 PENALTY DATE	21 NOV 2025
INSTALMENT 3 PENALTY DATE	23 FEB 2026
INSTALMENT 4 PENALTY DATE	21 MAY 2026

For volumetric metered water rates, a penalty of 10 percent (10%) will be added to the amount of metered water rates remaining unpaid after the due date to be added on the following dates:

METERS INVOICED IN JUNE: 22 JUL 2025
METERS INVOICED IN JULY: 21 AUG 2025
METERS INVOICED IN AUGUST: 23 SEP 2025
METERS INVOICED IN SEPTEMBER: 21 OCT 2025
METERS INVOICED IN OCTOBER: 21 NOV 2025
METERS INVOICED IN NOVEMBER: 23 DEC 2025
METERS INVOICED IN DECEMBER: 21 JAN 2026
METERS INVOICED IN JANUARY: 23 FEB 2026
METERS INVOICED IN FEBRUARY: 23 MAR 2026
METERS INVOICED IN MARCH: 21 APR 2026
METERS INVOICED IN APRIL: 21 MAY 2026
METERS INVOICED IN APRIL: 21 MAY 2026

On 2 July 2025, a further penalty of five percent (5%) will be added to rates (including previously applied penalties) that remain unpaid from previous years on 1 July 2025. On 5 January 2026, a further penalty of five percent (5%) will be added to any portion of previous years rates (including previously applied penalties) still remaining unpaid on 4 January 2026.

The above penalties will not be charged on a rating unit where Council has agreed to a programme for payment of rate arrears or where a direct debit programme is in place and payments are being honoured, in accordance with the Council's Rates Remission Policy.

RATES IMPACT ON EXAMPLE PROPERTIES

The Council uses example properties with different rating mixes and a range of property values to illustrate the impact of its rating policies.

The general rate applies to every rateable rating unit in the District. Targeted rates are applied to rating units depending on how each targeted rate is set, as detailed in this document.

To demonstrate rates changes between the 2024/2025 year and the rates for the 2025/2026 year, a selection of 29 properties from the District have been set out below.

These properties are examples and do not cover all situations for all of the rateable properties in the District.

More information on the rates for a particular property can be found on the Council's website www.tasman.govt.nz.

The following table is GST inclusive. It covers the total rates increases including both the increases in the general and targeted rates. Metered water has been included using set volumes for the example properties.

Depending on particular circumstances and the effect of specific targeted rates, individual circumstances will vary from these examples.

The overall rates change for these properties ranges from 1.96% to 13.81%.
