Other types of recycling

E-waste recycling

Electronic waste can't go in your recycling bin. Instead, take it to one of the local e-waste recyclers (listed below) which are supported by Council to reduce the cost of e-waste recycling for Tasman residents and businesses. Small charges may apply to cover processing costs.

- Nelson Environment Centre
6 Vivian Place, Annesbrook
- Weka Peckers Recycling
97 Robinson Road, Lower Moutere

Composting

Residents are entitled to a \$20 subsidy (including gst) per household when purchasing a compost bin, worm farm, worms or a bokashi set from approved retailers. See the list of retailers at www.tasman.govt.nz/compost-worm-farms-and-bokashi.

Bin placement

Place your recycling bin close to the kerb with your rubbish bags and glass crate. Leave at least half a metre between each object – this gives the truck's mechanical arm room to pick up the bin.

Keep batteries out of bins

Batteries are a leading cause of fires in landfills and compactor trucks. Instead of binning your batteries, take them to one of our free drop-off locations listed at www.tasman.govt.nz/more-recycling-resources so we can send them to an e-recycling facility.
